SONS AND DAUGHTERS OF NIPPON GATHER TO CHEER CONVERTED CRUISER ANEGAWA

The Japanese training ship Anegawa arrived in the harbor at about 10 o'clock this morning, having come from the Orient after a short stop at Midway.

All the Japanese population of the city was waiting for her anxiously, and when she came off the harbor crowds were down on the wharves or aboard sampans and launches and everything else in the harbor that would float. Everywhere waved the flag of Japan. Every little sampan bore a string of brilliant crimson and white. Above the quarantine wharf they were clustered in a swarm—big ones twinkling and snapping in the breeze, and every boat full of excited, gayly clad subjects of the Mikado.

For the Anegawa is to the Japanese no ordinary war vessel. She is more than that. She is a trophy of victory, for she was captured from the Russians in the war, and represents the prowess of the little brown people. She is a converted cruiser of large size and is manned and officered largely by men who fought in the war.

Great preparations have been made by the Honolulu Japanese for the reception of their warship. Every launch in the harbor was engaged by them. A reception committee was ready to go out to the vessel as soon as she arrived in the harbor.

When the vessel was reported practically every Japanese in town hastened down to the wharf. All who could piled into the sampans, while the reception committee put out to board the vessel.

Shortly after the dock of sampans moved out into the harbor forming a long line and sailing or being towed out toward the ship, where they clustered about like a swarm of excited bees.

As the sampan pulled out into the stream, they commenced a bombardment of daylight fireworks which was kept up at intervals for several hours.

The ship will not come in the harbor for two days. The local Japanese have made extensive preparations for a reception to the officers and men of the visiting training ship. The time for this will depend upon when will be most convenient to the commanding officer of the Anegawa, but it is possible it is planned to have it take place Saturday afternoon at the Boys' Field. There will be exhibitions of wrestling, fencing and other athletic sports, speech-making, etc. If there is any Japanese on the island of Oahu who is not present at that time, it will be because it is a physical impossibility for him to get there. Many a dinner table is liable to be without its usual servants, for all the domestic servants of Honolulu have asked for Saturday as a holiday. It is pretty safe to say that they will take it, too.

And the Japanese employed on the outside plantations will all be there. Already they are coming into town. Yesterday afternoon there might have been seen traversing one of the roads leading into the city a Japanese of enormous stature. He was dressed in the most elaborate uniform, with more gold braid than an admiral. The man had been a cavalryman in the Russo-Japanese war, and his presence was necessary to complete the preparations for the reception of the other heroes of the war. He strode with a proud and martial air, for he was, for the time being, no longer a plantation hand. He was a hero, a man who had fought for the Mikado.

MAIL MAY EXPLAIN THE DROP IN BEETS

Local brokers are awaiting with a considerable degree of curiosity the mail advices which the Siberia is expected to bring from the mainland tomorrow, in which they anticipate finding an explanation of the peculiar fluctuations in beet sugars. These have rather surprised them, as the downward tendency was least expected now when the reported shortness of the beet crop and the unsettled political conditions on Cuba should make the prices rise.

It is thought that possibly unusually fine weather in the beet country, which is of especial importance now that the harvest is at hand, may be responsible for the drop in price.

FIREWORKS AND MUSIC FOR SATURDAY'S RALLY

The Executive Committee of the Oahu County Committee held a meeting this noon, but the session was secret, it having been decided by the committee that certain of its transactions should not be prematurely allowed to come to public knowledge.

FURNITURE

At Your Own Price

The old established furniture house of J. HOPP & CO., the store in the Young Building, which recently bought the stock of furniture which belonged to the Porter Furniture Co., which is retiring from business, have placed on sale at J. HOPP & CO.'S store the entire stock of Porter's at prices which have never been placed on furniture here before.

J. HOPP & CO. carry on their own account a large stock of furniture and they have no room for Porter's stock, so they will almost give away the latter. Bring your money with you and the price will be less than you expect to pay.

Closing Out The Stock

The Porter Furniture Co. had a stock which included some high grade goods. We will "murder" these. We have a new lot of new furniture due to arrive here and must put Porter's stock out of the way.

The stock includes everything you can use in your house. Now is the time to buy it.

Federal Building Will Be Discussed

The Central Improvement Committee will meet this evening at 8 o'clock at the rooms of the Promotion Committee to consider various matters of business. One of the delegates has suggested that the committee consider the Federal building sites in connection with the rebuilding of Charles Mulford Robinson, who recommended that the building should be placed in a large open space, unobstructed by other structures. It is probable that the committee will take up this matter, although it will not enter into any content as to the respective merits of the sites which have been offered.

Among other matters to be considered are the billboard situation, in which satisfactory progress had been made, and the reading of answers received in reply to letters sent by the committee. One of these replies is from the Board of Supervisors, relating to the work at Pukaki Hill; another

from the Superintendent of Public Works concerning the proposition to remove the stables in the Capitol yard, and still another from the Planners' Association relative to the fence of the Experiment Station on Wilder avenue. All these matters have received prompt attention and the replies are very satisfactory.

JACUEN FUNERAL

The burial of Hyppolyte Jacuon, who was killed by a bursting enemy shell at E. O. Hall & Son's store yesterday, will take place this afternoon at 3 o'clock from the Catholic Cathedral. The interment will take place in the Makiki cemetery.

The deceased was 42 years of age. He leaves a widow and a small child. He also had several sisters and brothers, one of the latter having recently left for the family home at Christchurch, New Zealand.

FILE WRIT OF ERROR

United States District Attorneys Breckons and Dunne filed a perfected writ of error this morning in the mandamus suit against Registrar of Conveyances Merriam to compel him to register land at Pearl Harbor under the judgment in the case of the United States vs. Joseph Rawl et al. The judgment was for the sum of \$16,500. The case has been before the courts for some time and it is understood that the appropriation for the land has lapsed on account of the time taken up in the legal complications.
